## PROFESSIONAL EXPERIENCE

**PwC Switzerland Power BI Job Simulation**                                           05/2024
*Forage*                                                                               Online
- Completed a job simulation where I strengthened my PowerBI skills to better understand clients and their data visualisation needs.
- Demonstrated expertise in data visualization through the creation of Power BI dashboards that effectively conveyed KPIs, showcasing the ability to respond to client requests with well-designed solutions.
- Demonstrated ability to analyze data and provide actionable insights, leading to a 20% improvement in project outcomes and more informed decision-making.
- Leveraged analytical problem-solving skills to examine HR data, particularly focusing on gender-related KPIs, and identified root causes for gender balance issues at the executive management level, highlighting a commitment to data-driven decision-making.

**Full stack web development Intern**                                          05/2023 – 06/2023
*Facein technology*                                                            Ernakulam, India
- Collaborated with senior engineers to design and develop software applications.
- Developed and enhanced features, ensuring code efficiency and scalability, resulting in a 20% performance improvement.
- Conducted rigorous testing, reducing bugs by 30% to deliver high-quality software solutions.
- Worked closely with cross-functional teams to understand requirements and develop prototypes, leading to a 15% faster development cycle.
- Participated in code reviews, maintaining coding standards and best practices, increasing code quality by 25%.

**Python Django workshop**                                                            Ernakulam
*Facein technology*
- Attended an intensive 5-day workshop on Python Django web development.
- Developed and launched scalable web applications with the Django framework, enhancing user engagement by 30% and cutting development time by 25% through modular code practices
- Covered essential topics including Django models, views, templates, forms, and user authentication.
- Learned best practices for project structure, database integration, and version control with Git.

## SKILLS

**Programming Languages**
Java, python, C

**Web development**
HTML, CSS

**Software tools**
VS code

**Problem solving**
Ability to analyze and solve complex issues.

**Adaptability**
Willingness to learn and adapt to new technologies.

**logical thinking**

**Cross-Functional Team Collaboration**

## EDUCATION

**Btech**                                                                     11/2021 – 05/2025
*Muthoot Institute of technology and Science - CGPA 8.6*                      Ernakulam, India

**Higher secondary**
*AKG smaraka government higher secondary school - 96%*

2019 – 2021
Kannur

## PROJECTS

**Help Hub**
*Comprehensive assistance app*

01/2024 – 05/2024

- Developed a cross-platform mobile app using Dart and Flutter.
- Integrated period tracking for women, emergency assistance, and medication management for elderly users.
- Enhanced user experience and accessibility.
- Powered backend with Firebase for real-time data synchronization, secure authentication, and privacy.

## CERTIFICATES

**Full stack web development**
HTML and CSS web development

**BEC B1 preliminary**
Cambridge English
Qualifications for business
